DEVELOPMENT SECRETAIAT

Bangalore, dated 12th February 1945.

O. M. No. D. 5381 (i)—I. & C. 43-44. The following Press Note with the application form regarding the registration of Post-war requirements of Capital Goods, issued by the Government of India is republished for general information:—

C. E. NORONHA, *Dev. Secy.*

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE.

IMPORT TRADE CONTROL.

Press Note.

Registration of Post-war Requirements of Capital Goods.

At the meeting of the Industries Policy Committee held at Bombay on the 26th October 1944, the Hon'ble Member for

requirements of capital goods. Government have now finalised these arrangements and have addressed Chambers of Commerce and Industrial Associations on the subject.

2. It is understood that industrialists in other countries are already, in expectation of an early ending of the war, placing orders for their post-war requirements of capital goods for rehabilitation and expansion of industry. It is therefore desirable that Indian Industrialists should lose no time in booking their orders, and the Government of India are anxious to render all possible assistance in enabling Indian industry to obtain its requirements.

3. With this end in view, it has been decided that firms who have placed or intend to place orders for post-war requirements of capital goods from overseas should be called upon to register their orders with Government. The definition of the term "capital goods" for the purposes of this scheme, has been based on the Import Trade Control Schedule, and has been explained in detail in the letter to Chambers of Commerce and Industrial Associations. Orders for goods which are expected to be shipped before the 1st July 1945 need not be registered; for such goods, import licences should be applied for in the ordinary way. All orders for capital goods which are likely to be shipped after that date should however be registered, except that it is not necessary to register orders for machine tools of an estimated *f.o.b.* value of less than Rs. 10,000, and for other capital goods of an estimated value of less than Rs. 25,000.

4. The Chief Controller of Imports has been appointed as the Authority to whom applications for registration should be addressed. He will work under the direction of a Committee composed of representatives of the Commerce, Supply, Industries and Civil Supplies and Planning and Development Departments; representatives of other Departments of Government will be co-opted to the Committee as and when necessary. Forms of application for registration may be obtained either from the Office of the Chief Controller of Imports or from the office of any Import Trade Controller. Where orders have already been placed, the applications should be made as soon as possible; otherwise an application should be submitted when the applicant has estimated his requirements and is intending to place a firm order. Applicants will be informed as soon as possible whether Government agree to registration or have any objections or questions to raise. If no objection or question is raised within three months of the date of receipt of the application in the office of the Chief Controller of Imports, applicants will be entitled to assume that registration has been accepted. The Chief Controller of Imports will in any case accept registration of orders which were placed on and accepted by the suppliers before the 23rd December 1944. When registration is accepted, a certificate will be issued and the importer will be expected to place his order, if he has not already done so. He will then be required to inform the Chief Controller of Imports within six months of the acceptance of registration whether his order has been accepted by the supplier. If no such information is received or if the importer has not applied for an extension of the period, he will be informed that it is proposed to cancel the registration. Orders considered deserving of priority will, wherever it is possible to do so by arrangement with the manufacturing country, be given a priority grading.

5. It is probable that some form of import control will continue for some time after the war and that import licences will therefore be necessary. Import licenses for capital goods falling within the scope of the registration scheme which are not expected to be shipped before the 1st July 1945, will be granted only when orders have been registered with the Chief Controller of Imports and have been accepted by the suppliers, the fact of such acceptance having been duly reported to the Chief Controller of Imports. When import licenses have been granted, Government will afford assistance in procurement and in shipment of the goods, where necessary and possible.

6. It is expected that foreign exchange other than currencies of the sterling area countries will continue to be scarce for some time and it will be necessary to ensure that the available foreign exchange resources are utilised to the best advantage of the country. U. S. A. dollars, Canadian dollars and Swiss francs are likely to be in particularly short supply. Applicants who desire to purchase capital goods from outside the sterling area should therefore explain in their applications
